Lino, Howard, and Brenda:

I am writing this letter to share the great results of using Chrisal's probiotic products at our gym in Cocoa Beach, FL.

I first heard of Chrisal's cleaning and probiotic qualities through Beasley's Flowers. After the first meeting with Brenda and Howard we were sold on the concept and placed our first order.

As you can imagine it can be an effort for a gym to maintain a healthy and clean environment for our members. After using Chrisal in our facility we experienced excellent results. More importantly our members noticed improvements in the odor, the elimination of chemical smells and the overall cleanliness of our gym. Chrisal is also a perfect way to maintain our air conditioning system and nothing else also can clean the ductwork. It only takes a few seconds.

Not only does the product work beyond its claims... is so cost effective. We have shared Chrisal with several of our members. A couple of our gym members have taken samples of Chrisal including our fogger to try out at home and loved the results, so we will now be selling Chrisal to our members and the public. I am pleased to share this information with all of you. Chrisal's probiotic products are just outstanding.

Sincerely,

Kelly Guion
